

Student Research Assistant (HiWi) position: Website management

The Institute of Thermodynamics in Aerospace (ITLR) is looking for a dedicated student assistant to help our team with the administration and updating of our websites (web hosting). This position offers a great opportunity to gain practical experience in website management and make a valuable contribution to the dissemination of information about our research and teaching activities.

Task:

- Updating and maintaining the websites (DROPIT and ITLR) in German and English
- Uploading content, images, videos, events, etc.
- Integrating the SFB TRR 75 website into the ITLR website
- Updating and maintaining scientific publications using PUMA

Requirements:

- Enrolled student at a recognized university
- Good knowledge of German or English in both spoken and written form
- Ability to work in a team and adapt to new tasks such as web hosting
- Communication skills and a high willingness to collaborate

Desirable skills:

- Practical experience in website management

Dauer/-Umfang:

- Starting immediately (Dezember 2023)
- 12.5-25 hours per month
- Initial contract for 3 months (extendable)

If interested and for further information
